Further information on the number and type of visitors is available on a separate product (see [www.destinationnsw.com.au/LocalAreaProfiles](http://www.destinationnsw.com.au/LocalAreaProfiles))

\* TR = Tourism Region.

Source: Australian Bureau of Statistics, Survey of Tourist Accommodation

Notes: Most recent available data is used in this summary as noted for each item above.

ABS ceased collecting information on hotels with less than 15 rooms, caravan parks, holiday homes/units and visitor hostels in June 2010 but it is expected that a private company, STR Global will commence collecting equivalent data for hotels with less than 15 rooms, caravan parks and visitor hostels in 2012, to be published through Tourism Research Australia.

The mapped location of the LGA (as well as data for previous years on accommodation establishments) is available in the "LGA Profile" from the ABS (See: <http://www.ausstats.abs.gov.au/ausstats/nrmaps.nsf/NEW+GmapPages/national+regional+profile?opendocument> and click on "Local Government Area", "NSW Get Data" and the "+" sign for a clickable list of all LGAs in NSW).
